Q1 Highlights

- Net Multi-Client revenues in the quarter totaled MUSD 17.9 (2015: MUSD 14.6)
- Net Multi-Client revenues were comprised of late sales of MUSD 5.5 (2015: MUSD 3.9), prefunding on Multi-Client investments of MUSD 9.2 (2015: MUSD 7.4) and other revenue of MUSD 3.1 (2015: MUSD 3.4).
- EBIT for the quarter was MUSD (6.8) (2015: MUSD (4.3))
- Multi-Client investments were MUSD 27.7 with 33.3% prefunding rate (2015: MUSD 13.2 with 56.1% prefunding)
- Operational cash flow in Q1 was MUSD 44.0 (2015: MUSD 18.0)

First quarter report for Spectrum ASA

Statement of comprehensive income

Net Multi-Client revenues totaled MUSD 17.9 in the first quarter of 2016 (2015: MUSD 14.6). Prefunding recognized in the quarter was MUSD 9.2 (2015: MUSD 7.4), Late sales ended at MUSD 5.5 (2015: MUSD 3.9) and other revenue was MUSD 3.1 (2015: MUSD 3.4). Total net operating revenues for the group were MUSD 18.2 (2015: MUSD 14.9).

Operating expenses were MUSD 6.3 including MUSD 0.2 cost of stock options (2015: MUSD 7.8 including MUSD 0.6 cost of stock options).

Multi-Client amortizations in the first quarter ended at 101.5 % of net MC revenue (2015: 71.3%). The amortization level is impacted by amendments in the accounting standards with prospective effect and hence changes in the group's accounting policies and principles for amortization of the Multi-Client library.

EBIT for the first quarter was MUSD (6.8) (2015: MUSD (4.3)).

Profit Before Tax in the first quarter ended at MUSD (8.0) (2015: MUSD (4.8)).

The Board recommends that dividends will be considered in Q4 2016, after amortization of the current loan facility in Q2 and Q3.

Management has made an assessment of the group's tax position and tax cost in the period based on the results, tax rate and tax treatment in each subsidiary. The estimated tax for the first quarter was a gain of MUSD 0.1.

Statement of financial position

The total assets of the group were MUSD 350.5 (end Q4 2015: MUSD 356.9) at the end of the quarter, split between non-current assets of MUSD 261.8 (end Q4 2015: MUSD 251.5), and current assets of MUSD 88.7 (end Q4 2015: MUSD 105.3). These were funded by equity of MUSD 193.9 (end Q4 2015: MUSD 201.6), long term liabilities of MUSD 20.6 (end Q4 2015: MUSD 19.6) and current liabilities, including accrued revenue share, of MUSD 136.0 (end Q4 2015: MUSD 135.7).

During Q1 2016 Spectrum invested MUSD 27.7 (Q4 2015: MUSD 27.7). This increase in carrying value of the MC library was offset by amortization of MUSD 18.2 (Q4 2015: MUSD 22.0). The net book value of the Multi-Client library at end Q1 is MUSD 230.3 (end Q4 2015: MUSD 220.7).

The cash and cash equivalents balance increased by MUSD 14.3 from end Q4 2015 to MUSD 37.7. Management considers that the Company has sufficient liquidity to meet its ongoing operational and financial obligations.

The reported equity balance is MUSD 193.9 (end Q4 2015: MUSD 201.6). This equates to an equity ratio of 55.3%.

Long term interest bearing debt was MUSD 12.3 (end Q4 2015: MUSD 11.7) and consist of parts of the revolving facility.

Cash flow

The cash and cash equivalents balance increased by MUSD 14.3 from end Q4 2015 to MUSD 37.7.

Net cash flow from operating activities was MUSD 44.0 (2015: MUSD 18.0) for the quarter. Working capital decreased by MUSD 32.6 (2015: decrease of MUSD 10.8).

Net cash outflow from investing activities was MUSD 28.0 in the quarter (2015: MUSD 8.9) of which MUSD 27.7 was investments in the Multi-Client library (2015: MUSD 13.2).

Net cash outflow in the quarter from financing activities was MUSD 0.9 (2015: inflow of MUSD 0.2).

Multi-Client Operations

Net Multi-Client revenues of MUSD 17.9 in the quarter represent an increase of 23% vs. 1st quarter 2015 (2015: MUSD 14.6).

In Q1 22% of the Net Multi-Client revenues came from North and South America (NSA), 44% Africa, Mediterranean and Middle-East (AME), 25% Northwest Europe (NWE) and 8% Asia Pacific (AP).

Spectrum's Multi-Client library is composed of data and reports from many of the major oil producing and frontier regions of the world. The library comprises approximately 3.3 million km of 2D data, making Spectrum the market leader in Multi-Client 2D data. The 2D Multi-Client library presents a number of new opportunities to enhance the value of these datasets through reprocessing in addition to the pipeline of new acquisition surveys that are being developed around the world. Spectrum also holds approximately 160 000 km² of 3D data sets. Furthermore, Spectrum holds 125.000 km² of seamless seismic merged 3D data on the Norwegian continental shelf.

Revenue from Multi-Client sales was 98.2% of total revenue in the first quarter of 2016.

Spectrum entered on 1 July 2015 into a Memorandum Of Understanding (MOU) with PGS and Schlumberger in Mexico, and on 3 November 2015 the agreement was signed. The operation has recorded over 61,000 kilometers of modern, long-offset 2D data encompassing all the major hydrocarbon provinces offshore Mexico. Fast Track products are available and final products will be available through 2016.

Spectrum entered on 5 September 2015 into a Multi-Client master cooperation agreement with the federal government of Somalia. The agreement allows Spectrum to acquire approximately 28,000 km of long offset 2D seismic data offshore south Somalia in order to image subsurface structures. The new acquisition, commenced 4 December 2015, has been specifically designed to complement 20,000 km of existing seismic that was acquired in 2014. Together, these seismic surveys will allow the in-depth study of hydrocarbon prospectivity offshore Somalia, which lies in close proximity to major discoveries on the East African

margin. Spectrum will use its global reach to market both data sets and raise industry interest. The acquisition is expected to be complete end April and final products to be available from Q4 2016.

Spectrum, in collaboration with Polarcus and DownUnder GeoSolutions, finished the acquisition of the 3,511 km² MC3D survey over the Vulcan Sub-basin, offshore North West Shelf (Cygnus 3D), Australia, in Q1 2016. Processing will be done by DownUnder GeoSolutions through a broadband Pre-SDM workflow and final processed data will be available from Q3 2016 with Pre-STM fast track data available from Q1 2016.

Spectrum announced 30 March 2016 a 10,400 kilometer Multi-Client 2D survey offshore Brazil in the Amazonas and Para Maranhao basins along the Equatorial Margin of Brazil. The new acquisition program will tie five of Spectrum's Northern Margin programs producing a continuous dataset from the French Guyana border through the Potiguar basin. Data is being acquired with a 12,000 meter cable to record data necessary to understand the basins architecture as well as image the prospective zones in the mid and lower Cretaceous sections. The data will be processed in Spectrum's processing center in Houston. PreSTM, PreSDM and Broadband products will be available in Q4 2016

Investment in the Multi-Client Library

Net Multi-Client Revenues

Seismic Imaging

Seismic imaging is provided from the group's processing centres in UK, US, Egypt and Indonesia. Spectrum's seismic processing technology is based on third party software complemented by Spectrum's production processing platform, which is constantly being enhanced with new processing techniques.

The seismic imaging division had proprietary revenues of MUSD 0.3 (2015: MUSD 0.3) in the quarter. In the first quarter 92% (2015: 91%) of the capacity of Spectrum's seismic imaging business unit was utilized in processing data for the Multi-Client library.

The seismic data imaging division provides a valuable service to the Spectrum Multi-Client segment and had reprocessing projects totalling 144,767 km in first quarter in addition to processing of data from on-going new acquisitions.

Seismic Imaging Key Figures

	Spectrum Group	
(USD 1000)	Q1 16	Q1 15
External revenue	329	280
Internal revenue	3,940	3,014
Total gross revenue	4,269	3,294

Future prospects

Spectrum is continuously working on a pipeline of new Multi-Client 2D (MC2D) and Multi-Client 3D (MC3D) acquisition projects. Sales from the MC library and prefunding of new projects constitute the main revenue streams for the Company and fund the operation and new investments in MC projects.

In order to maintain a modern library Spectrum reprocesses selected projects to enhance quality and value.

MC3D surveys are a natural extension of Spectrum's growing MC2D business and in line with our strategy to diversify the Multi-Client library. Spectrum has 3D surveys in Australia, Norway, Brazil, US, UK, the Netherlands and Lebanon. Spectrum is an asset light

company that stringently evaluates potential investments in new Multi-Client surveys with focus on prefunding levels and future sale triggers. We appreciate that attracting prefunding is more challenging in the current market vs previous periods, and our focus will be sales from our existing library and being prudent in terms of new Multi-Client investments decisions.

Given the current market conditions it is of outmost importance to carefully evaluate all potential projects for prefunding and sales potential. Our investment portfolio criteria are as such more focused on quality of the investments as opposed to quantity. Spectrum believes that there is an attractive project pipeline in place for the remaining part of 2016.

Notes to accounts

NOTE 1 - GENERAL INFORMATION

Spectrum ASA (the company) is a public limited company listed on the Oslo Stock Exchange. The address of the registered office is Sjølyst Plass 2, N-0278 Oslo, Norway.

NOTE 2 – BASIS OF PREPARATION

The consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) IAS 34 Interim Financial Reporting as approved by EU and additional requirements in the Norwegian Securities Trading Act. The consolidated interim financial statements comprise the financial statements of the Company and its subsidiaries, Spectrum's interest in equity accounted joint ventures and the proportionate share of the assets, liabilities, income and expenses of jointly controlled operations as at 31st March 2016. The reporting period of subsidiaries coincides with that of the group, and the financial statements of the subsidiaries are prepared using accounting policies consistent with the group's policies. The accounting policies used in the preparation of these accounts are consistent with those followed to prepare the Company's Consolidated Financial Statements for the year ended 31st December 2015. Full details of the policies are described in note 1 of those accounts and are available from the registered office and on the company's website. The group's accounting policies and principles for amortization of the Multi-Client library has changed 1 January 2016 with prospective effect due to amendments in IAS 38 "Intangible assets".

All intra-group balances, income and expenses resulting from intra-group transactions are eliminated in full. The accounting policies for Multi-Client libraries and revenue recognition are considered by management to have a significant effect on the company's accounts and are listed below.

Intangible assets

Multi-Client libraries represent seismic surveys for which Spectrum has the right to license copies to multiple different customers. These surveys can be complete or in progress at the date of financial position, and are categorized as non-current intangible assets. They are recorded at cost (or fair value/cost where purchased from a third party) less accumulated amortization and impairment losses.

Amortization of Multi-Client library

During the work in progress (WIP) phase amortization is calculated based on total cost versus forecasted total revenues of the project. This ratio is applied to the revenue recognized for the survey.

After a project is completed, a straight-line amortization is applied. The straight-line amortization will be assigned over the project's remaining useful life, which for most projects is expected to be 4 years. The straight-line amortization will be distributed evenly through the financial year independently of sales during the quarters.

For purchased libraries the group applies a linear amortization over the estimated remaining life of the libraries.

The minimum amortization policy discontinued from 1 January 2016. The changes have prospective effect.

Revenue recognition

Early sales – When the Spectrum Group obtains funding for a particular survey before it is completed in data processing, revenue is recognized on a percentage of completion basis.

Late sales – Revenue earned on completed surveys is recognized at the time of the transaction when the customer executes a valid license agreement and has the right to access the licensed data.

The new IFRS 15 "Revenue from contracts with customers" has been issued by IASB and FASB for periods starting on or after 1 January 2018. The standard has not yet been approved by the EU. The standard may significantly impact the reporting of Early sales for the Group.

Impairment

Spectrum reviews the carrying value of its Multi-Client libraries when there are events and changes in circumstances that indicate that the carrying value of the survey may not be recoverable.

NOTE 3 – SEGMENT INFORMATION

Spectrum is a pure play Multi-Client company and management has organized the entity as one segment based upon services provided. Consequently the company has one segment as defined in IFRS 8 Operating segments. Multi-Client consist of 99.3% of the Group's total revenue.

	Spectrum Group		
	Quarter ended	Quarter ended	12 months ended
	31.03.16 (Unaudited)	31.03.15 (Unaudited)	31.12.15 (Audited)
(USD 1000)

Seismic imaging	329	280	786
Net revenue	18,225	14,887	109,844

Spectrum ASA classifies Multi-Client revenue as early sales or late sales based on the products sold. PSTM (Time) and PSDM (Depth) are treated as separate products. E.g.: A sale of a completed PSTM product will be classified as late sale even if the PSDM product has not been completed.

The Multi-Client segment is divided into operating segments identified on a geographical basis. Management has implemented new geographic segments taking effect from 2016 due to changes in the company structure after the purchase of the Fugro library. The segment figures for 2015 are presented according to the new structure to provide comparative figures. Assets and liabilities are not reported by operating segment in management reporting and are not disclosed separately. The Group does not allocate all cost items to its reportable operating segments during the year, unallocated cost items are reported as Group functions and seismic imaging.
